EASTERN HEALING TRADITIONS

Ayurveda, the science of life, is a 5000 year-old natural healing practice rooted in the Vedic culture of India. Recently, ayurveda has been enjoying a major resurgence in both its native land and throughout the world. Tibetan medicine, traditional Chinese medicine and early Greek medicine all originated in ayurveda dating back thousands of years. Beyond natural healing, ayurveda is a science of life offering wisdom designed to vitalize the individual while helping them realize their full human potential.

Shirodhara – Calms Mind & Body \$150/45 min

The Shirodhara (shiro-dar-a) is a profoundly relaxing treatment in which a soothing stream of gently warmed sesame oil is slowly poured over the forehead, calming the central nervous system and integrating the mind and body.

Abhyanga – Relax, Enhance Immunity & Increase Circulation \$250/60 min

The Abhyanga (abee-yan-ga) massage is performed by two therapists in synchronicity and utilizes warm herbal oils followed by hot towels. The oil is massaged into the skin, penetrating deep into the tissues to eliminate toxins at the cellular level. Immune function is enhanced, circulation is increased and body and mind enjoy deep relaxation.

Ghandharva – Rebalance & Rejuvenate Mind, Body & Spirit \$225/60 min

The Ghandharva (gaan-darva) is a meditative massage experience utilizing sound therapy and subtle movement of energy. A crystal singing bowl, full body massage and ancient energy balancing techniques are employed to rebalance and rejuvenate the mind, body, and spirit.

ASIAN HEALING RITUALS

Tibetan Singing Bowls are actually a type of bell, specifically classified as standing bells. Rather than hanging or having an attached handle, standing bells rest on their bottom surface. The sides and rims of singing bowls are made to vibrate using a padded mallet, which produces sounds of varying pitch, dependent upon the size, thickness and metallurgy of each bowl. Singing bowls were traditionally used throughout Asia as part of Tantric Buddhism. Today they are employed worldwide, both within and without spiritual context, for meditation, relaxation, improved health and to enhance a sense of personal well-being.

Chakra Alignment – Balance & Harmony for Mind & Body \$150/45 mi

Sublime, harmonious tones form palpable matrices that float in the air, each note precisely tuned to a unique chakra, which is affected by the placement of each bowl at its corresponding chakra point on the body. The 7 notes of the Western scale produced by the singing bowls correspond to one of the 7 chakras in the body. Gently layering the notes as they resonate calmly from the bowls balances the chakras and restores harmony to the mind and body.
